

ANT-GSM-E

GSM ANTENNA

The **ANT-GSM-E** dual-band antenna is designed to work with alarm control panels and communication modules which have GSM telephone and standard SMA connector. The **IPX-SMA** adapter allows you to use the antenna also for other devices operating in the 900/1800 MHz frequency bands.

ANT-GSM-E antenna design enables it to be mounted on enclosures offered by SATEL.

- 900/1800 MHz antenna
- SMA male connector
