OPX-1 UNIVERSAL HERMETIC ENCLOSURE

OPX-1 is a hermetic surface-mounted enclosure designed for both indoor and outdoor use. It is manufactured using two-component injection moulding technology. The combination of high-quality polycarbonate, which gives the enclosure resistance to mechanical damage and UV radiation, and the sealing material makes the enclosure resistant to harsh weather conditions. An AXD-200 or XD-2 detector can be placed inside the OPX-1.

- dimensions: 29 \times 157 \times 28 mm
- IP65 rating
- tamper contact supporting AXD-200 and XD-2 detectors
- output for FPX-1 flood probe
- key for opening the enclosure included

The enclosure is available in three colours: white (OPX–1), black (OPX–1 B) and dark grey (OPX–1 DG).
