

# B-2T BR

## MAGNETIC CONTACT (BROWN)

Magnetic contacts constitute basic elements of perimeter protection systems and their primary task is to detect attempts of opening doors and windows. Medium-size **B-2T BR** tight face magnetic contacts are designed for flush mounting in door or window leaves and frames. They are equipped with screw terminals. This mounting method makes them invisible from the outside. The contacts are available in white and brown colour versions.

- recessed mounted
- screw terminals
- sealed body

## TECHNICAL DATA

|                                            |              |
|--------------------------------------------|--------------|
| Operating temperature range                | -10...+55 °C |
| Weight                                     | 6 g          |
| Maximum humidity                           | 93±3%        |
| Make distance                              | 19 mm        |
| Break distance                             | 21 mm        |
| Dimensions magnet enclosure                | 14,5 x 11 mm |
| Environmental class according to EN50130-5 | II           |
| Reed switch enclosure dimensions           | 23,5 x 11 mm |
